

GEN. HARBORD FINDS GERMANY INDUSTRY HIVE

Staff Officer Declares People in Main Are Contented and Happy.

By Universal Service.
Major General James G. Harbord brought back from Germany yesterday an encouraging report of conditions.

He found the mass of the people content with their new form of government and in the main happy and prosperous. He made an official tour of observation for the War Department in which he visited every section of Germany.

General Harbord said he was impressed with the unusual volume of commerce on the Rhine. In the interior he found the factories all humming with industry and the railroads functioning efficiently.

The value of the mark in exchange is not a factor in the industrial situation, he observed.

"The relation of the sudden fluctuation of the mark to the laboring man is, I believe, taken care of by the labor unions," General Harbord said. "The value of the money received is always regulated by the

labor performed. This is a difficult operation, but they manage it somehow.

"There are no signs of a return to the old political order of things. Perhaps there is too lavish spending of money, but this can be accounted for by the privations of war and the restoration of peace."

General Harbord paid a high tribute to the American troops of occupation on the Rhine.

"I found General Allen to be thoroughly well equipped for the place he holds," he said.

PLUCKY GIRL ROUTS

THREE HIGHWAYMEN

KITTERY, Me., Aug. 31.—The routing of three young men, one of whom had held her up, by Miss Sarah C. Scott, of Burlington, Iowa, a summer resident, became known today.

Confronted on a road after dark Tuesday night by one of the young men with a demand for her money and jewelry, the young woman opened her purse as if to comply, but drew out instead a revolver. The highwaymen ran and two companions waiting in the woods ran with him, but later were arrested.

OVER 250,000 ENGAGED

IN HANDLING OF MAIL

More than a quarter of a million persons are engaged in collecting, transmitting and delivering your mail.

This fact was made public today by Postmaster General Work. Accurate figures just tabulated reveal that there are 252,756 regular employees and 80,485 indirectly connected with the business of communication by mail.

FILM "GLASS" HIT BY CENSOR, SAYS EMERSON

Producer Declares Intelligent People Don't Attend Film "Shows Any More."

By WILLENE TAYLOR.

(Copyright, 1922, by Cosmopolitan News Service.)

NEW YORK, Aug. 31.—"Intelligent people don't go to the movies any more," John Emerson, president of the Actors' Equity, producer, director, ex-actor, scenarist and husband of Anita Loos, said today. "Censorship is the cause. A director isn't going to waste money on a fine picture for fear it'll be censored. About five years ago pictures began to get an intelligent audience. About two years ago they began to stop, and today I don't know one man in a hundred who goes, and why should they? Pictures are all 'paw'."

"Europe is just ten years behind us in plot construction, directing and selecting stories," he said, having just returned from five months' investigation of the movie problem in Europe. "There is no fear of invasion of America by European pictures, because they do not understand our psychology. They are spending years and huge sums on 'Sodom and Gomorrah' in Vienna, and Americans will never go to it one night."

"Europeans don't pow-wow over the morals of their stage and screen stars. They have something better to do. The French censorship degenerated into a political machine and then rotted away. Our's will do the same."

"The only good movie artists there, Pola Negri and Ernest Lubitch, are coming to America. European directors still write their own plots."

"Strangely, the French movie public wants straight-laced stories. Most of Europe favors our red-blooded stories of the open West and our dare-devil actors, Pearl White and Doug Fairbanks carrying off the laurels."

"Bella Donna" will be the first picture the Polish star, Pola Negri, will make upon her arrival in America, September 15. She will go directly to the west coast to make it at the Famous Players studio under direction of George Fitzmaurice.

Accompanying her from Germany will be Ben Blumenthal, leading figure in international filmdom, and president of Export and Import

'Radio Fizz' Now Rage In Cuba; Is Sold On Beaches

NEW YORK, Aug. 31.—Take us somewhere east of Cuba," paraphrased members of the crew of the freighter Cayunas, which docked in Newark bay after a trip to several Cuban ports.

The main reason for the refrain seemed to be the "radio fizz" which is just now the rage in Santiago. It is composed of gin as a base, with a dash or two of Vermouth and enough mint added to flavor it. They sell it right on the beach to accommodate bathers.

The girl bathers at the Cuban beach, the crew declares, are far ahead of their New York sisters in the matter of style. One-piece swimming suits are the rule, not the exception, and, furthermore, ears are in style. Hair piled on the head exposes the ears, the lobes of which are tinted delicately with rouge. Knickers are common.

Films, who promises to bring the greatest European picture ever made with him.

About the wildest thing yet, is said to be the "Devil-Devil" dance, a pastime of scantily-clad South American heathens, which Gordon MacCreagh, an ethnologist, secured in motion picture version while on the Mulford biological exploration expedition.

Enid Bennett will arrive on Broadway in about a month as the star in a Morosco play, "The Sporting Thing to Do." It will be the pretty actress' first appearance in "legit."

"Drifting," in which Alice Brady shone, has been purchased for the screen by Universal Pictures and Priscilla Dean will play the stellar role.

REBUILT LEVIATHAN TO BE FINEST OCEAN PALACE

The rebuilt German steamer Leviathan "will be by far the finest vessel afloat of her class and type, and as nearly perfect as it is possible to have a vessel of her size and type."

So reports Rear Admiral W. S. Benson, retired, commissioner of the United States Shipping Board, after an inspection, the results of which were made public today.

Twenty-nine hundred men are at work repairing the big ship. "Fire-proof partitions are being put into the hold every 138 feet, making it possible to confine a fire to the space between these partitions," said Admiral Benson.

CUBA FACING INTERVENTION, HAVANA GOSSIP

General Crowder Reported to Have Delivered Ten-day Ultimatum to Zayas.

By Universal Service.

HAVANA, Aug. 31.—A ten days' period of time has been allowed President Zayas in which to whip Congress into line to pass recommended legislation, according to well-founded reports current here.

If at the expiration of ten days Congress has not accomplished its tasks, General Crowder will abandon the island republic to the mercies of the administration and Congress.

This, according to the report, means nothing less than intervention. Numerous conferences have been held between General Crowder and President Zayas during the past few days and an iron-clad ultimatum is said to have been issued, by whom it is not stated, demanding that reform legislation be expedited.

While Cuba is in the throes of financial depression at the present time and many officials are under investigation for alleged irregularities, all politicians and legislators

NEGRO DRAGS POLICEMAN TO DEATH UNDER TRAIN

CHICAGO, Aug. 31.—Unmindful of everything except the fight between them, Michael Burke, a special policeman for the New York Central railroad, and James Wallace, a negro, whom Burke arrested for trespassing, were struck and killed by the Western, New York Central express, as they fought on the tracks here last night.

Wallace had been arrested by Burke when found prowling around the yards. He attempted to escape and Burke tried to hold him as the train bore down upon them. They fought back and forth across the tracks, while the engineer attempted to attract their attention and stop the train.

With the speeding locomotive only a few feet away, the negro dragged the policeman on the tracks.

BLIND FOR TEN DAYS, HER SIGHT IS RESTORED

NORRISTOWN, Pa., Aug. 31.—As suddenly as her sight went, it returned for Margaret Wisler, nineteen years. When her niece entered the room Miss Wisler said, "She has on a brown and plaid dress," which was true.

Because she had not seen for ten days, her people thought she was delirious and summoned a physician, but he found that sight had been restored.
